the world better. But many of us didn't have the luck to learn effective questioning techniques as children. We were not encouraged to form opinions and were rather scolded for being too curious. So we didn't learn how to properly question and assess the information we hear, read, and how to think for ourselves. But we can absolutely change that! And educate our children to be better equipped with critical thinking skills. Make better decisions. Don't be gullible.

Do you want to be logical like Einstein, observant like Sherlock, and rational like Plato? These great names have something in common: they are all exceptional critical thinkers. What did they do differently that made them so recognizable for their intellects? -They thought slowly and deliberately before making a snap judgment or decision -They questioned every fact and opinion (including their own) -They took the time to study the subject or object of their decision making to gather information before jumping to conclusions -They accepted and expected that human nature is ultimately biased and prone to make cognitive errors The Critical Thinker gives you a thorough description of the rules and principles of critical thinking practiced by Einstein, Plato and every great thinker in history. You will learn about the most important critical thinking principles as well as shortcuts to make better decisions in specific situations. These critical thinking principles will help your personal life, career, and friendships. Improve your critical, logical, observational, and rational thinking skills with the timeless principles presented in this book. Critical thinking skills will improve your relationships and your financial life too. -Learn the main principles of critical thinking. -Train your cognitive muscles to think faster and jump to the best conclusions effortlessly. -Find the
