Desi Land is Shalini Shankar's lively ethnographic account of South Asian American teen culture during the Silicon Valley dot-com boom. Shankar focuses on how South Asian Americans, or "Desis," define and manage what it means to be successful in a place brimming with the promise of technology. Between 1999 and 2001 Shankar spent many months "kickin' it" with Desi teenagers at three Silicon Valley high schools, and she has since followed their lives and stories. The diverse high-school students who populate Desi Land are Muslims, Hindus, Christians, and Sikhs, from South Asia and other locations; they include first- to fourth-generation immigrants whose parents' careers vary from assembly-line workers to engineers and CEOs. By analyzing how Desi teens' conceptions and realizations of success are influenced by community values, cultural practices, language use, and material culture, she offers a nuanced portrait of diasporic formations in a transforming urban region. Whether discussing instant messaging or arranged marriages, Desi bling or the pressures of the model minority myth, Shankar foregrounds the teens' voices, perspectives, and stories. She investigates how Desi teens interact with dialogue and songs from Bollywood films as well as how they use their heritage language in ways that inform local meanings of ethnicity while they also connect to a broader South Asian diasporic consciousness. She analyzes how teens negotiate rules about dating and reconcile them with their longer-term desire to become adult members of their communities. In Desi Land Shankar not only shows how Desi teens of different socioeconomic backgrounds are differently able to succeed in Silicon Valley schools and economies but also how such variance affects meanings of race, class, and community for South Asian Americans.

That's how she became student body president. Varsity soccer star. And it's how she'll get into Stanford. But she's never had a boyfriend. In fact, she's a disaster at romance, a clumsy, stammering humiliation magnet whose botched attempts at flirting have become legendary with her friends. So when the hottest human specimen to have ever lived walks into her life one day, Desi finds guidance in the Korean dramas her father has been obsessively watching for years—where the hapless heroine always seems to end up in the arms of her true love by episode ten. It's a simple formula, and Desi is a quick study. Armed with her "K Drama Steps to True Love," Desi goes after the moody, elusive artist Luca Drakos—and boat rescues, love triangles, and staged car crashes ensue. But when the fun and games turn to true feels, Desi finds out that real love is about way more than just drama. A Margaret Ferguson Book
