Durkeim's book on suicide, first published in 1897, is widely regarded as a classic text, and is essential reading for any student of Durkheim's thought and sociological method. This book examines the continuing importance of Durkheim's methodology. The wide-ranging chapters cover such issues as the use of statistics, explanation of suicide, anomie and religion and the morality of suicide. It will be of vital interest to any serious scholar of Durkheim's thought and to the sociologist looking for a fresh methodological perspective.

And Political Thought

concise introduction to the work, life, and influences of Émile Durkheim, one of the informal “holy trinity” of sociology’s founding thinkers, along with Weber and Marx. The author shows that Durkheim’s perspective is arguably the most properly sociological of the three. He thought through the nature of society, culture, and the complex relationship of the individual to the collective in a manner more concentrated and thorough than any of his contemporaries during the period when sociology was emerging as a discipline.

Emile Durkheim's work on religion occupies a central place in religious studies classrooms today. This volume is designed as a resource for teachers, offering practical advice about productive ways to approach central texts and difficult pedagogical issues.

‘This is an excellent introduction to classical social theory. For most students it is the only book on the subject that they will need. The expositions are clear and comprehensive, outlining with almost alarming clarity ideas with which many of us have to struggle’ - Alan Bryman, The Management Centre, University of Leicester

This is a thoroughly revised, expanded version of the best selling student text in classical social theory. The book provides an authoritative, accessible undergraduate guide to the three pivotal figures in the classical tradition. Readable and stimulating, the book explains the key ideas of these thinkers and situates them in their historical and philosophical contexts. The student gains an immediate understanding of what is distinctive and relevant about these giants of sociology. The book includes a glossary with over

150 entries. For a decade, the book has been required reading on undergraduate degree programmes. This new edition, refines the material, extends the analysis and enhances our appreciation. It is a nugget in its field.

This classic series provides students with concise and readable introductions to the work, life and influence of the great sociological thinkers.

This book examines Durkheim's considerable achievements and situates them in their social and intellectual contexts, with a concise account of the major elements of Durkheim's sociology. The book includes a critical commentary on the four main studies which exemplify Durkheim's contribution to sociology: The Division of
