The FANUC teach pendant is a hand-held device used to interact, program, and problem solve the robot and, in most cases, an essential part of a robot system. While there are other ways to program a robot, the teach pendant allows the operator to move around and watch the robot movement

Fanuc Robot Teach Pendant Manual

The FANUC teach pendant is designed for either left or right handed operation. The strap is typically placed on your non-dominate hand, leaving your dominate hand to hit most buttons and navigation keys. The strapped hand is used for the DeadMan switch and often the SHIFT key. The teach pendant is corded to the robot's main controller.
