An IICRC Study Guide for those preparing for IICRC Water Restoration Technician and / or Applied Structural Drying Technician. Derived from the full 530 page book, Leadership in Restorative Drying - Gold Edition.

DO YOU BELIEVE EXCEPTIONAL DRYING RESULTS START WITH SCIENTIFICALLY SOUND UNDERSTANDINGS? Of course you do Drying success is not solely the result of the tool you buy or the certificate on your wall. A adrying goda emerges when they apply the physics that drive water to change phase from a solid or liquid to a gas and understand how to assess, manipulate and control the water molecule a regardless of its phase. However, over the course of 3 decades, compromises in accuracy and agenda driven messages have found their way into some formal education programs and even the industry Standards. These compromises and flawed messages are well documented, yet they are persistently taught as fact to the innocent students and even the consuming public and insurance representatives. Structural restorative drying leaders identify and reject such propaganda and compromises. Leadership in Restorative Drying is the first comprehensive resource guide to clearly identify several of the scientific errors that permeate the structural restorative drying industry, and substitute it with easy to understand explanations and descriptions. What results? Leaders in restorative drying services are able to engineer an effective drying protocol that accommodates ALL drying strategies a refrigerant dehumidification, desiccant dehumidification, heaters, air movement / exchangea why a even the choice to open a window. It's not the tool that dries the structurea it's the restorer's skill in the use of their tools. Courageous leaders are invited to read this book. Stand up and be identified as a bearer of accurate information. Lead in your marketplace. - What REALLY dictates the rate of evaporation? (You may be surprised) - Do you have a drying plan that defines your daily drying objectives in your drying strategy? - Drying is not entirely about psychrometry (Does that make you a heretic?) - Scientific principles and formulas that dictate how much air movement you need. (This WILL surprise you) - What's the trick to drying dense materials like wood and concrete? (It's not a specific tool) - Multi-million dollar drying jobs. How are they managed? *NEW: Be ready for the new ideas described in the next edition of the ANSI / IICRC S500 Standard and Reference Guide to Professional Water Damage Restoration. Many are considered within this book. *NEW: An education road-map that creates a solid career and a loyal employee. *NEW: How is restorative drying a leadershipa developed? (Competence is not defined solely by speed) *NEW: Psychrometry is now explained with vastly improved visual aids *NEW: Have you heard about a triple pointa? (It's the key to vacuum freeze drying success) *NEW: aHeat drying strategiesa and accountabilities. (Have you considered all your risks?) *NEW: Does amorea equipment/energy] always produce faster drying? (Not according to the studies out there.) *NEW: Can you show your customer how a desiccant can sometimes] be a more cost effective approach to drying than an LGR? *NEW: There is an industry that is up to ten times larger than insurance related drying - and they need your skills This 530 page, high quality, full-color book improves upon the industry's only teaching guide that has been approved for use in all three IICRC WRT, ASD and CDS classes. This book has been recommended reading material for those who wish to attain ACAC CSDR and CSDS certification, the RIA's WLS and CR program, as well as those seeking a degree from Purdue University with a concentration in disaster restoration. The information in this book assists every"

The Bluebook provides over 100,000 residential & light commercial structure and contents costs for construction, reconstruction, remodeling, repairs, and home improvement of all types throughout the United States and Canada.

This 300+ page, high quality, full-color book is the industry's only teaching guide that is approved for use in all three IICRC WRT, ASD and CDS classes, and is also recommended reading material for students who are preparing for their ACAC Council Certified Structural Drying Remediator / Supervisor credential (CSDR / CSDS). This book accurately and simply explains most elements of psychrometry in a fashion that is easy to understand. Further, many common inaccuracies and untruths are boldly exposed. This is information that EVERY expert MUST know in order to carry competence in their

field.

Derived from Leadership in Restorative Drying - Gold Edition; compressed study guide for those seeking their Commercial Drying Specialist certificate with the IICRC.

Authored by Ken Larsen, CR, WLS, CSDS for use in the classroom, this condensed 32 page soft cover document is written with the intention of providing an IICRC student with an extremely concise focus on the learning objectives found within the IICRC's WRT and ASD curriculum. While the booklet is intended to be used as a companion to the full Leadership in Restorative Drying a Gold Edition book, (ISBN: 978-1-4575-2901-6 published by Dog Ear Publishing) it can assist any student who wishes to prepare for their WRT and / or ASD education. This booklet can be viewed as Cliff Notes; a pre-educational document for those intending on attending any water damage restoration education. Note: The IICRC modifies the learning objectives in their courses regularly (every year or two). Therefore, this booklet will be modified in accord with the current course content. About The Author Ken Larsen BIO Ken Larsen, CR, WLS, CSDS has been in the restoration industry since 1978. He holds RIA, ACAC and IICRC advanced designations. His career includes 18 years as an independent property restoration contractor, consultant to restorative drying during catastrophes and large loss drying coordination, expert witness, Director of Education for North America's largest disaster restoration contracting organization, and now the author of the industry's leading technical resource book on the subject of structural restorative drying a Leadership in Restorative Drying. He is currently an IICRC Approved instructor of WRT, ASD and CDS certificate courses. He is also one of RIA's instructors of the restoration professional's capstone credential: Certified Restorer (CR). Larsen presently serves as Senior Technical Director for the International Dry Standard Organization (IDSO) and Director of Education for the Restoration Leadership Institute. Ken lives with his wife Barbie (yes a really!) in Santa Rosa Beach in Northwest Florida. He can be contacted at ken@drystandard.org ."

Insurance restoration the repair of buildings damaged by water, fire, smoke, storms, and other disasters is an exciting and challenging field of construction. It also offers contractors lucrative work that's immune to economic downturns pipes still break, buildings still burn, and trees are still blown over, regardless of the economy. And with the insurance companies funding the repairs, your payment is virtually guaranteed. But not just anyone can repair fire- and water-damaged buildings. You need the knowledge and the equipment to get the job done right, and that's what this book is all about. From understanding fire repairs and smoke odors to restorative drying methods, mold remediation, and handling contents, you'll not only learn how to provide top-notch property and content restoration services, but also how to become the person homeowners and insurance companies turn to first in an emergency putting yourself first in line for all the best jobs.

The 24-Hour Tech is a training manual for those in the water damage or "restoration" field. This manual walks the reader through the 20-Step Mitigation Process. It is intended as a complete training manual for new Water Damage Technicians who wish to quickly learn how to properly document insurance losses involving water damage. Andrew McCabe developed this process over years of water damage claims experience. He still uses it today in his consulting practice - Claims Delegates. If you want to learn quickly how to properly document and perform water damage mitigation, without paying for an expensive certification class, The 24-Hour Tech is perfect for you. The process and manual are also the perfect complement to recent grads of WRT or ASD training classes. You may understand HOW to dry a structure, but The 24-Hour Tech teaches you how to get PAID by insurance companies. The system is designed to flow directly into the Xactimate estimating software used by 90% of the insurance claims world.

An organized, structured approach to the 2018 INTERNATIONAL PLUMBING CODE Soft Cover, these TURBO TABS will help you target the specific information you need, when you need it. Packaged as pre-printed, full-page inserts that categorize the IPC into its most frequently referenced sections, the tabs are both handy and easy to use. They were created by leading industry experts who set out to develop a tool that would prove valuable to users in or entering the field.
