On Theronuclear War, by Herman Kahn (1960) by Angelo M. Codevilla Tuesday, March 8, 2016 By the late 1950s, the notion that nuclear war would extinguish mankind, dramatized in Nevil Shute's best selling On The Beach and the subsequent movie, or kill hundreds of millions of Americans at the very least, had become prevalent.

KAHN ON THERMONUCLEAR WAR PDF - PDF For Me

Nuclear warfare (sometimes atomic warfare or theronuclear warfare) is a military conflict or political strategy which deploys nuclear weaponry. Nuclear weapons are weapons of mass destruction; in contrast to conventional warfare, nuclear warfare can produce destruction in a much shorter time and can have a long-lasting radiological result.

On Theronuclear War / Edition 1 by Herman Kahn, Evan ...

The most devastating war ever fought was probably World War II, and the aftermath of a nuclear war would probably be similar to that in many respects — it would just be telescoped into a shorter period of time.

On Theronuclear War – 6-Commando

On Theronuclear War was controversial when originally published and remains so today. It is iconoclastic, crosses disciplinary boundaries, and finally it is calm and compellingly reasonable. The book was widely read on both sides of the Iron Curtain and the result was serious revision in both Western and Soviet strategy and doctrine.

On Theronuclear War was controversial when originally published and remains so today. It is iconoclastic, crosses disciplinary boundaries, and finally it is calm and compellingly reasonable. The book was widely read on both sides of the Iron Curtain and the result was serious revision in both Western and Soviet strategy and doctrine. As a result, both sides were better able to avoid disaster during the Cold War. The strategic concepts still apply: defense, local animosities, and the usual balance-of-power issues are still very much with us. Kahn's stated purpose in writing this book was simply: "avoiding disaster and buying time, without specifying the use of this time." By the late 1950s, with both sides H-bomb-armed, reason and time were in short supply. Kahn, a military analyst at Rand since 1948, understood that a defense based only on theronuclear armaments was inconceivable, morally questionable, and not credible. The book was the first to make sense of nuclear weapons. Originally created from a series of lectures, it provides insight into how policymakers consider such issues. One may agree with Kahn or disagree with him on specific issues, but he clearly defined the terrain of the argument. He also looks at other weapons of mass destruction such as biological and chemical, and the history of their use. The Cold War is over, but the nuclear genie is out of the bottle, and the lessons and principles developed in On Theronuclear War apply as much to today's China, Russia, Iran, and North Korea as they did to the Soviets.

Herman Kahn was the only nuclear strategist in America who might have made a living as a standup comedian. In telling his story, Ghamari-Tabrizi captures an era that is still very much with us--a time whose innocence, gruesome nuclear humor, and outrageous but deadly serious visions of annihilation have their echoes in the "known unknowns and unknown unknowns" that guide policymakers in our own embattled world.

In this reconsideration of his controversial study Thinking about the Unthinkable (1962), Kahn addresses deterrence concepts and specific arms control issues which are likely to remain at the forefront of the nuclear debate. Taking into account the political, technical and moral developments of the past 20 years, he argues that since nuclear weapons exist and cannot be disinvented, it is crucial to maintain a militarily strong United States, while making every effort to enhance deterrence. He believes that for a government to pursue deterrence at any cost, without contingency plans, is not only irresponsible but immoral; and that the only justification for maintaining a nuclear arsenal is to deter, balance or correct the use of nuclear weapons by others. ISBN 0-671-47544-4 : \$16.95.
