Designed for ground instructors, flight instructors, and aviation maintenance instructors, the Aviation Instructor's Handbook was developed by the Flight Standards Service, Airman Testing Standards Branch, in cooperation with aviation educators and industry to help beginning instructors understand and apply the fundamentals of instruction. This handbook provides aviation instructors with up-to-date information on learning and teaching, and how to relate this information to the task of teaching aeronautical knowledge and skills to students. Experienced aviation instructors will also find the updated information useful for improving their effectiveness in training activities. While this handbook primarily uses the traditional term "student" to denote someone who is seeking certification in aviation, the accepted term in educational psychology is "learners."

A vital resource for pilots, instructors, and students, from the most trusted source of aeronautic information.

Supplement your studying with this test guide that comes loaded with all of the FAA recreational and private pilot airplane knowledge test questions, along with the correct answers, detailed explanations, and study references.

"...the most complete explanation of aeronautical concepts for pilots pursuing a Private Pilot certificate."-- cover.
