Remarkable list of works of international literature that span three centuries.

Nobel Prize-winning novelist J. M. Coetzee is one of the most widely taught contemporary writers, but also one of the most elusive. Many critics who have addressed his work

have devoted themselves to rendering it more accessible and acceptable, often playing down the features that discomfort and perplex his readers. Yet it is just these features, Derek Attridge argues, that give Coetzee's work its haunting power

and offer its greatest rewards. Attridge does justice to this power and these rewards in a study that serves as an introduction for readers new to Coetzee and a stimulus for thought for those who know his work well. Without overlooking the South African dimension of

his fiction, Attridge treats Coetzee as a writer who raises questions of central importance to current debates both within literary studies and more widely in the ethical arena. Implicit throughout the book is Attridge's view that literature, more than philosophy, politics, or even religion, does
