Among their findings: formal hierarchy is actually good for teams; successful team leaders fit no ideal profile; commitment to performance goals is more important than commitment to team-building goals; top management teams are often smaller and more difficult to sustain; and team endings can be as important to manage as team beginnings. The wisdom of teams lies in recognizing their unique potential to deliver results and in understanding their many benefits.

The Wisdom of Teams presents  
Katzenbach and Smith's contention that  
real teams are the best approach to  
building a high-performance organization.  
The authors blended together their highly  
detailed framework for team development  
with examples of how several corporations  
successfully or unsuccessfully  
implemented these team principles.
