What The Is Normal

British comedian Francesca Martinez challenges the reader to reassess exactly what comprises being 'normal'. She's well qualified to do so, having been branded 'abnormal' since birth. Gutsy, warm, funny and uncompromising, she narrates what it was like growing up with Cerebral Palsy. But as Martinez prefers to call it, she was born ...

What Is Normal? | Psychology Today

What is normality? A normal person is whoever conforms to a paradigm that is accepted by most of people . But it is not true that most of people are normal, so the one who strives to be normal follows a wrong way, the way of the majority. It seems that they are like sheep and no one of them goes out of the flock.
